# Ready check!

## You will need

- A working copy of Drupal 8
- Acquia Cloud free site [acquia.com/drupal-8](https://acquia.com/drupal-8)
- Ready Set Drupal Manual

## Nice to have

- Browser inspection tool such as Firebug for Firefox, or “Developer mode” in Chrome.
- Lorem Ipsum text generator.

# Task: Drupal 8 – Acquia Cloud

- Go to [acquia.com/drupal-8](https://acquia.com/drupal-8)
- Choose to **try now**.
- Configure your site

④ Add a new free site

You can create a free sandbox to develop an Acquia Cloud site and upgrade to a paid subscription later.

**Site name \***

Permanent name used for your site's default URL and code repository. You cannot change your site name after creation, but custom domains (e.g. mysite.com) can be added later.

beta319nov

✓ This site name is available.

**Distribution**

Drupal 8 Beta [8.0.0-beta3 – Drupal 8] ▾

**Select the location of your cloud instance**

Placing your instance close to your customers can improve performance.

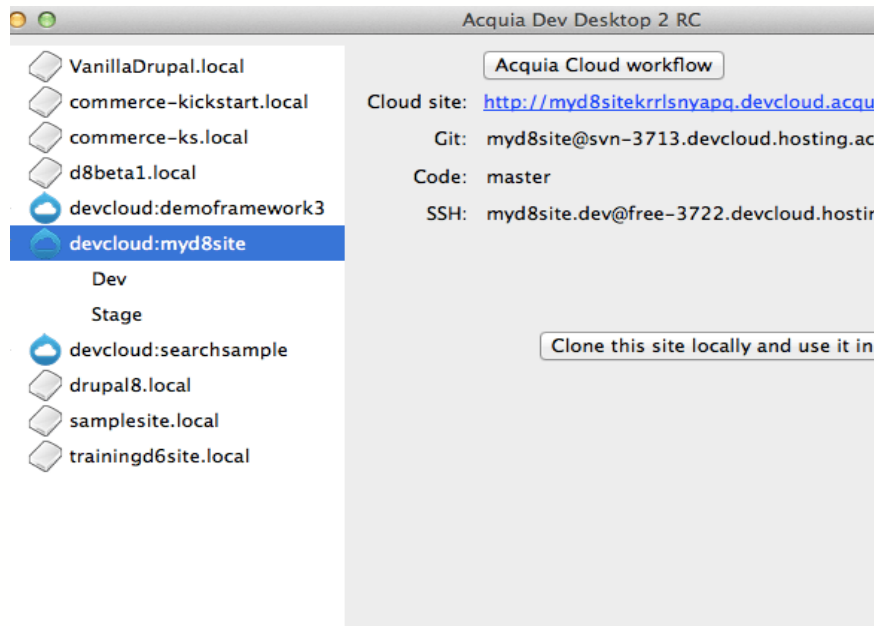

European Union ▾

☒ I have read and accepted the [Acquia terms of service](#).

**Add** Cancel

# Bonus: Local Copy

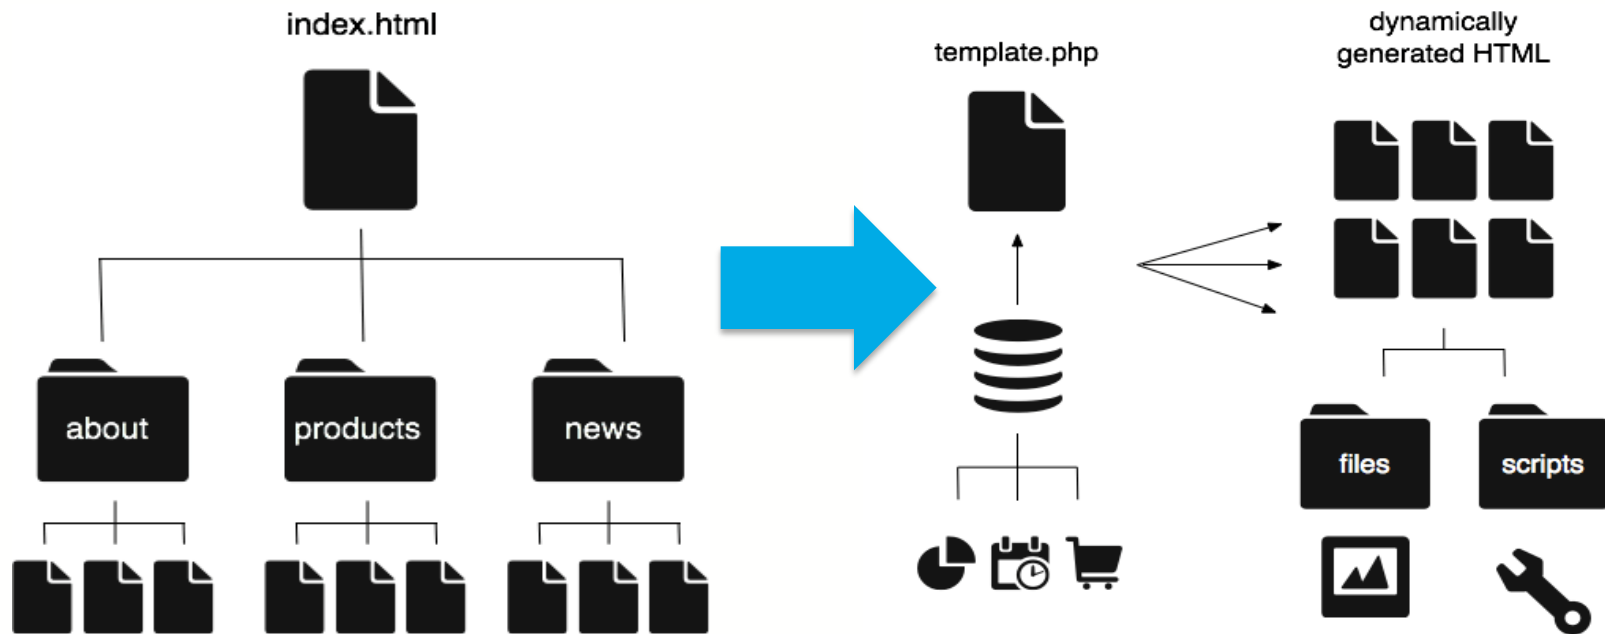

- Install Dev Desktop 2
- Connect locally, securely.

Who is using it, and how?

## 2.0 WHAT IS DRUPAL?

# “Webmasters” Saved by PHP

# In comes Drupal!

- Founded by Dries Buytaert in his college dorm, circa 2001.
- **CMS:** Content management system
- **Popular:** 1 out of every 50 websites
- **Flexible:** From programmable API to UI tools for modeling data and display
- **OSS:** Open source software (GPL v 2+)

# Many Great Examples

# Assembling Pages in Drupal

We'll look at the individual components that make up a specific page in Drupal.

The screenshot shows the 'Who Uses Drupal?' page on the Drupal.org website. At the top, there is a navigation bar with links: 'Who Uses Drupal', 'Why Use Drupal', 'Get Started', 'Menus: Navigation', 'Join the community at', and 'Drupal.org'. Below the navigation bar, the title 'Who Uses Drupal?' is displayed. Underneath the title, there is a horizontal menu with categories: 'Financial Services', 'High Tech', 'NGO', 'Life Sciences', 'Public Sector', 'Higher Ed', and 'Entertainment'. The main content area displays a grid of user showcases. The first showcase is for 'Financial Services', which includes a blue header, a description of their digital channels, and a screenshot of their website. The second showcase is for 'VOYA FINANCIAL', which includes a header, a description of their rebranding, and a screenshot of their website. The third showcase is for 'TECH COAST ANGELS', which includes a header, a description of their hardware/software companies, and a screenshot of their website. The fourth showcase is for 'SUNCORP GROUP', which is highlighted with a red border and includes a header, a description of their insurance services, and a screenshot of their website. The fifth showcase is for 'Views: Dynamic grid display', which includes a header, a description of their dynamic grid display, and a screenshot of their website. The page also features a 'Back to top' link at the bottom right.

Why Use Drupal

Get Started

Get started with Drupal

Marketers & business leaders

You can grow revenue, acquire more customers,  
and extend your brand.

## Features

Drupal is a powerful solution that lets marketers create rich user experiences, shopping experiences and integrate with existing marketing technology. Drupal is flexible, open, easy to use for technical people - and it easily connects to market optimization and other marketing technology solutions.

## Benefits

- Easy and fun to create and update content on your mobile device
- Manage site content and campaigns in one place
- Fully responsive to ensure your users can access content from any device
- Connect with all of your marketing tools that you use

# Demo: Adding an Article

- Go to Content > +Add content.
- Select article.
- Review the form.

The screenshot shows a web interface for creating a new article. At the top, there's a header bar with the text 'Create Article' and a star icon. Below this, a breadcrumb trail reads 'Home > Add content'. The main form area is divided into several sections. The 'Title' section has a label 'Title \*' and a text input field. Below the title field, a note states: 'The title of this node, always treated as non-markup plain text.' The 'Body' section is labeled 'Body (Edit summary)' and contains a rich text editor with various formatting tools (bold, italic, link, unlink, bulleted list, numbered list, indent, outdent, image, source) and a large text area. Below the body editor, there's a 'Text format' dropdown menu set to 'Basic HTML' and a link 'About text formats'. The 'Tags' section has a label 'Tags' and a text input field with a search icon. Below the tags field, a note says: 'Enter a comma-separated list. For example: Amsterdam, Mexico City, "Cleveland, Ohio"'. The 'Image' section has a label 'Image' and a 'Choose File' button. Below the button, it says 'No file chosen'. At the bottom of the image section, there are two lines of text: 'One file only.' and '2 MB limit. Allowed types: png gif jpg jpeg.' On the right side of the form, there's a sidebar with several sections: 'Last saved: Not saved yet', 'Author: siteadmin', 'Create new revision' (with a checkbox), and a list of expandable settings: 'MENU SETTINGS', 'COMMENT SETTINGS', 'URL PATH SETTINGS', 'AUTHORING INFORMATION', and 'PROMOTION OPTIONS'.

# Block Example

- Default basic block has one body text field. What if you want an image and a link?
- With “Block Types” in Drupal 8, you can add fields.
- Such as an image or link field.

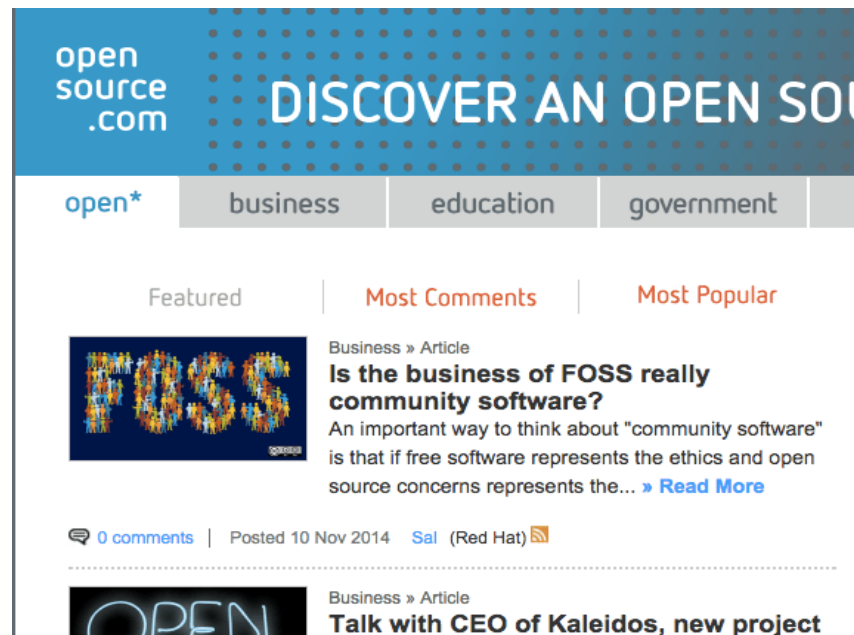

The screenshot illustrates the Drupal 8 Block API. On the left, the 'Add Basic block custom block' configuration form is shown. It includes a 'Block description' field with the value 'Basic block example', a 'Body' text area containing the text 'This is a basic block with a text inline if you like. But you can't u', a 'Text format' dropdown set to 'Basic HTML', and a 'Save' button. On the right, the rendered output of the block is displayed. It features a blue navigation bar with links for 'About us', 'Articles', and 'Home'. Below the navigation bar, the 'Basic block example' is rendered as a text block with the same content as the configuration form. To the right of the text block, there is an 'About us' section with a 'View', 'Edit', and 'Delete' button, and a paragraph of text: 'Jolly Roger Jack Ketch jolly bo; Parley run a rig avast reef sails chantey mizzen hail-shot smart'. Below the text block, there is an 'Example call to action block' with a ribbon icon and the text 'Example Join today for these benefits.'

# Review

Drupal and the community

# 8.0 WHO IS USING DRUPAL?

# Who's using Drupal?

## Over a million websites already run on Drupal.

That's a lot of power! And some of them are among the world's biggest. The number increases every day, with Drupal itself growing at an amazing rate.

# How are they using it?

- In every industry from large sites to small.
- In-depth case studies on Drupal.org.

The screenshot shows the Drupal.org website with the 'Featured showcase' and 'Community showcase' tabs. The 'Category: Entertainment' filter is selected. Below the filter, four case study thumbnails are displayed: 'Viraland', 'The Official Beatles Website', 'National New Play Network', and 'McNally Jackson Books'. To the right, a sidebar titled 'Supporting partners help fund Drupal.org improvements' features the 'Acquia' logo. Below this, a 'Browse by category' list shows various categories with their respective counts, with 'Entertainment' highlighted in a dark box.

Featured showcase Community showcase

Category: Entertainment

Viraland

# DrupalCon

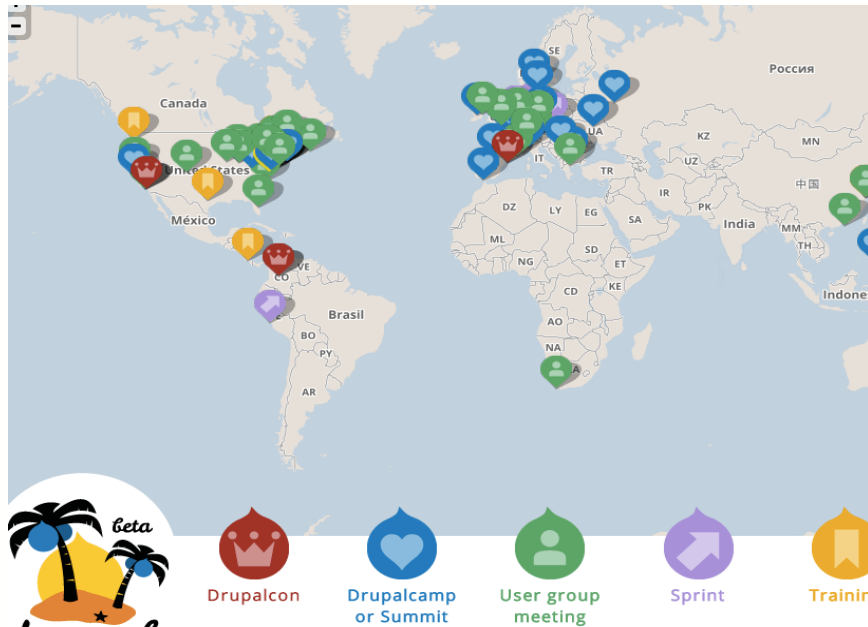

- 1500-3000 attendees
  - 5 days of learning and collaboration
  - Affordable tickets
  - Scholarships!
- Q: Where's the next DrupalCon?

Hint! [association.drupal.org/drupalcon](https://association.drupal.org/drupalcon)

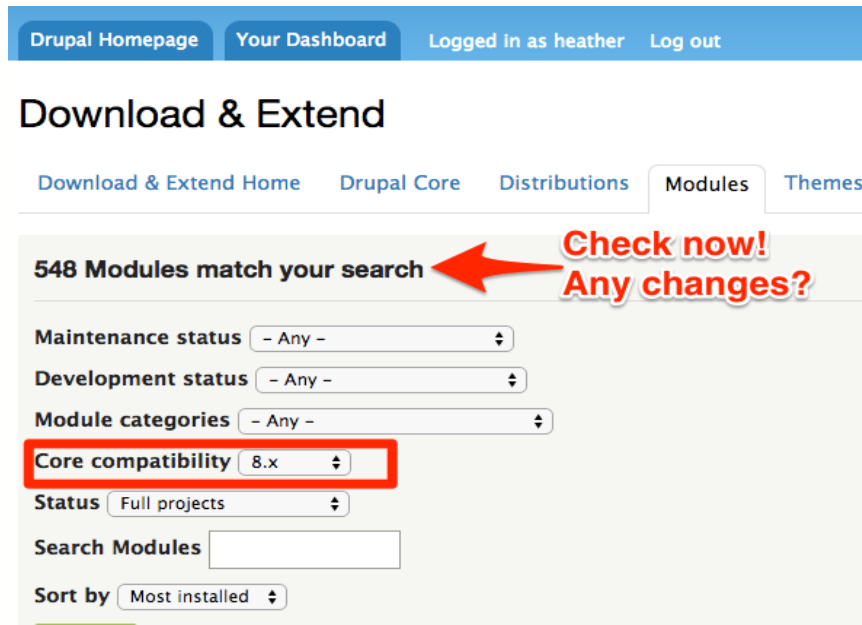

# Task: Connect Locally

- Attend meet-ups
- DrupalCamps (local conferences)
- Training – Free Global training days and paid training.

# Task: Search for Modules

→ Search through contributed modules.

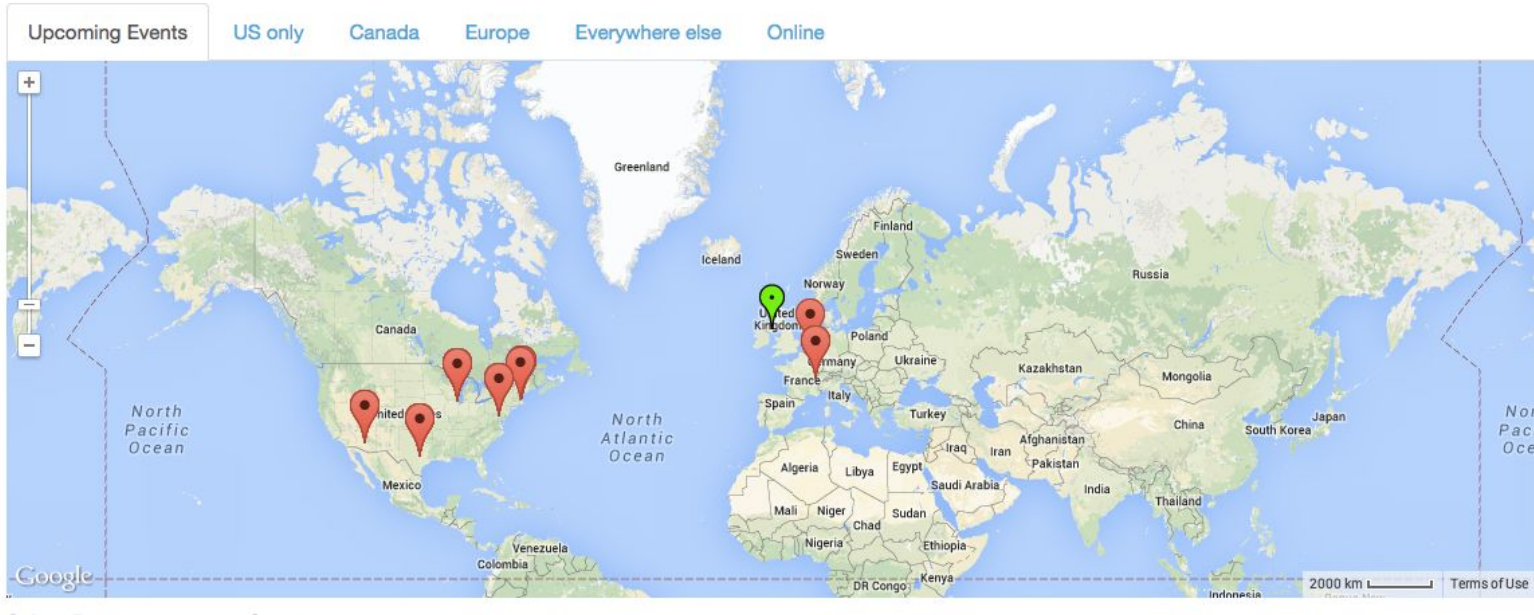

The screenshot shows the Drupal Download & Extend interface. At the top, there's a navigation bar with links for 'Drupal Homepage', 'Your Dashboard', 'Logged in as heather', and 'Log out'. Below this is the 'Download & Extend' section with tabs for 'Download & Extend Home', 'Drupal Core', 'Distributions', 'Modules', and 'Themes'. The 'Modules' tab is active. The main content area shows '548 Modules match your search' with a red arrow pointing to it. To the right of the arrow is a red text overlay that says 'Check now! Any changes?'. Below the search results count are several filter dropdowns: 'Maintenance status' (set to '- Any -'), 'Development status' (set to '- Any -'), 'Module categories' (set to '- Any -'), 'Core compatibility' (set to '8.x' and highlighted with a red box), 'Status' (set to 'Full projects'), 'Search Modules' (a text input field), and 'Sort by' (set to 'Most installed').
